Woher stammt der Bambus für unsere Möbel?

Unser Bambus kommt aus der prämierten Urlaubsregion Anji (China). Die Region ist ähnlich unserem Hochschwarzwald. Berge, Wälder, Bäche und Ferienwohnungen für Touristen. Eine sehr gepflegte Landschaft mit kleinen Bergdörfern und Bambusbauern. Die verarbeitende Industrie ist im Tal konzentriert. Alles ist nahe bei einander. Klimatisch ist es etwa so wie südlich der Alpen. Im Sommer etwas wärmer und schwüler als bei uns, im Winter fällt aber auch Schnee und man kann Skifahren.

Der Bambus, der in Anji wächst ist besser und teurer, als Bambus aus südlicheren tropischen Gebieten. Zudem ist die verarbeitende Industrie sehr stark von den Behörden kontrolliert, da Anji den Status eines prämierten Urlaubsregion (ähnlich einem Naturschutzgebiet) hat.
